

ALLIED HEALTH

Immaculata's Allied Health programs prepare professionals for fast paced careers in healthcare services. Capitalizing upon the strength of liberal arts and sciences education, the department offers training in health care in five cutting edge technology-oriented professions in Allied Health.

DEGREE OFFERED

Bachelor of Science in Allied Health Science

Students choose one of five areas of concentration within the Allied Health major:

- Clinical Laboratory Science
- Diagnostic Medical Sonography
- Nuclear Medicine Technology
- Invasive Cardiovascular Technology
- Surgical Technology

MAJOR REQUIREMENTS

Clinical Laboratory Science Concentration

Anatomy & Physiology I & II

Microbiology

Fundamental Chemical Concepts I & II

Introductory Organic Chemistry

Introductory Biochemistry

Organic Chemistry I & II

Physics I & II

Observations in Allied Health

Introductory Analysis I & II

Spanish for Medical Personnel I & II

Foundations in Psychology

Statistics

Computer Literacy I

Contemporary Medical Ethics

Diagnostic Medical Sonography Concentration

Anatomy & Physiology I & II

Microbiology

Basic College Chemistry I & II

Introductory Organic Chemistry

Introductory Biochemistry

Observations in Allied Health

Introductory Analysis I & II

Physics I & II

Spanish for Medical Personnel I & II

Foundations in Psychology

Statistics

Computer Literacy I

Contemporary Medical Ethics

Nuclear Medicine Technology Concentration

Anatomy & Physiology I & II

Microbiology

Basic College Chemistry I & II

Introductory Organic Chemistry

Introductory Biochemistry

Observations in Allied Health

Introductory Analysis I & II

Physics I & II

Spanish for Medical Personnel I & II

Foundations in Psychology

Statistics

Computer Literacy I

Contemporary Medical Ethics

Invasive Cardiovascular Technology Concentration

Anatomy & Physiology I & II

Microbiology

Basic College Chemistry I & II

Introductory Organic Chemistry

Introductory Biochemistry

Observations in Allied Health

Introductory Analysis I & II

Physics I & II

Spanish for Medical Personnel I & II

Foundations in Psychology

Statistics

Computer Literacy I

Contemporary Medical Ethics

Surgical Technology Concentration

Anatomy & Physiology I & II

Foundations in Psychology

Statistics

Computer Literacy I

Contemporary Medical Ethics

*Students must maintain a minimum overall Grade Point Average of 2.0 (C or higher)

**Transfer students: The following classes must be taken at Immaculata University and cannot be transferred: Microbiology, all required Chemistry, Biochemistry, and Physics courses

Lancaster General Partnership

After successful completion of the above courses, students apply to Lancaster General College of Nursing and Health Sciences. In the final year of study, students take full-time classes at Lancaster General in conjunction with their clinical instruction which takes place at leading hospitals and medical centers.
