

STUDIO ART

Students enrolled in the Certificate in Studio Art explore the fundamental principles of color, design, and composition through creative expression and experimentation. They are encouraged to consider the practical application of their artistic talents when planning for a career. Educator, public relations coordinator, print and visual media specialist, art or culture group administrator, retail manager, publication and advertising personnel are examples of professions in which artistic skills are sought.

Certificate in Studio Art– 18 Credits; the Certificate can be completed entirely in the evening
