

Child Psychologist

Community Behavioral Health (CBH), part of Philadelphia's award-winning Department of Behavioral Health & Intellectual Disability Services (DBH/IDS), has an exciting opportunity for a Child Psychologist.

This challenging administrative position provides senior level guidance to our clinical teams engaged in overseeing the delivery of BHRS care to our Philadelphia consumers. In addition to working closely with our care managers, the incumbent will conduct peer reviews and serve as the lead clinician in our grievance process, attend interagency meetings, and participate in site visits, among varied duties.

This is a full time position located at our offices in Philadelphia's historic district. In addition to a competitive salary and liberal benefit package, we offer an opportunity for a dedicated professional to have an immediate impact in the lives of the people we serve.

Qualified applicants will possess a Ph.D. or Psy.D., have at least three (3) years of post-licensure direct care experience, solid assessment skills, and be licensed in the Commonwealth of Pennsylvania. Philadelphia residency is required.

For immediate consideration, please forward a CV with salary history/requirements to:

**Community Behavioral Health
801 Market Street, 7th Floor
